SINGLE SURVEY TERMS AND CONDITIONS (WITH MVR)

PART 1 - GENERAL

1.1 THE SURVEYORS

The Seller has engaged the Surveyors to provide the Single Survey Report and a generic Mortgage Valuation Report for Lending Purposes. The Seller has also engaged the Surveyors to provide an Energy Report in the format prescribed by the accredited Energy Company.

The Surveyors are authorised to provide a transcript or retype of the generic Mortgage Valuation Report on to Lender specific pro-forma. Transcript reports are commonly requested by Brokers and Lenders. The transcript report will be in the format required by the Lender but will contain the same information, inspection date and valuation figure as the generic Mortgage Valuation Report and the Single Survey. The Surveyors will decline any transcript request which requires the provision of information additional to the information in the Report and the generic Mortgage Valuation Report until the Seller has conditionally accepted an offer to purchase made in writing.

Once the Seller has conditionally accepted an offer to purchase made in writing, the Purchaser's lender or conveyancer may request that the Surveyors provide general comment on standard appropriate supplementary documentation. In the event of a significant amount of documentation being provided to the Surveyors, an additional fee may be incurred by the Purchaser. Any additional fee will be agreed in writing.

If information is provided to the Surveyors during the conveyancing process which materially affects the valuation stated in the Report and generic Mortgage Valuation Report, the Surveyors reserve the right to reconsider the valuation. Where the Surveyors require to amend the valuation in consequence of such information, they will issue an amended Report and generic Mortgage Valuation Report to the Seller. It is the responsibility of the Seller to ensure that the amended Report and generic Mortgage Valuation Report are transmitted to every prospective Purchaser.

The individual Surveyor will be a member of the Royal Institution of Chartered Surveyors who is competent to survey, value and report upon Residential Property.¹

If the Surveyors have had a previous business relationship within the past two years with the Seller or Sellers Agent or relative to the property, they will be obliged to indicate this by ticking the adjacent box.

The Surveyors have a written complaints handling procedure. This is available from the offices of the Surveyors at the address stated.

1.2 THE REPORT

The Surveyors will not provide an amended Report on the Property, except to correct factual inaccuracies.

¹ Which shall be in accordance with the current RICS Valuation Standards (the Red Book) and RICS Codes of Conduct

The Report will identify the nature and source of information relied upon in its preparation.

The Surveyor shall provide a Market Value of the Property, unless the condition of the Property is such that it would be inappropriate to do so. A final decision on whether a loan will be granted rests with the Lender who may impose retentions in line with their lending criteria. The date of condition and value of the property will be the date of inspection.

To date, Purchasers have normally obtained their own report from their chosen Surveyor. By contrast, a Single Survey is instructed by the Seller and made available to all potential Purchasers in expectation that the successful Purchaser will have relied upon it. The Royal Institution of Chartered Surveyors rules require disclosure of any potential conflict of interest when acting for the Seller and the Purchaser in the same transaction. The Single Survey may give rise to a conflict of interest and if this is of concern to any party they are advised to seek their own independent advice.

The Report and any expressions or assessments in it are not intended as advice to the Seller or Purchaser or any other person in relation to an asking price or any other sales or marketing decisions.

The Report is based solely on the Property and is not to be relied upon in any manner whatsoever when considering the valuation or condition of any other property.

If certain minor matters are mentioned in the Report it should not be assumed that the Property is free of other minor defects.

Neither the whole nor any part of the Report may be published in any way, reproduced or distributed by any party other than the Seller, prospective purchasers and the Purchaser and their respective professional advisers without the prior written consent of the Surveyors.

1.3 LIABILITY

The Report is prepared with the skill and care reasonably to be expected of a competent residential surveyor who is a member of the Royal Institution of Chartered Surveyors.

The Report is addressed to the Seller and was prepared in the expectation that it (or a complete copy) along with these Terms and Conditions (or a complete copy) would (or, as the case might be, would have been) be disclosed and delivered to

- the Seller;
- any person(s) noting an interest in purchasing the Property from the Seller;
- any person(s) who make(s) (or on whose behalf is made) an offer to purchase the Property, whether or not that offer is accepted by the Seller;
- the Purchaser; and
- the professional advisers of any of these.

The Surveyors acknowledge that their duty of skill and care in relation to the Report is owed to the Seller and to the Purchaser. The Surveyors accept no responsibility or liability whatsoever in relation to the Report to persons other than the Seller and the Purchaser. The Seller and Purchaser should be aware that if a Lender seeks to rely on this Report they do so at their own risk. In particular, the Surveyors accept no responsibility or liability whatsoever to any Lender in relation to the Report. Any such Lender relies upon the Report entirely at their own risk.

1.4 GENERIC MORTGAGE VALUATION REPORT

The Surveyors undertake to the Seller that they will prepare a generic Mortgage Valuation Report, which will be issued along with the Single Survey. It is the responsibility of the Seller to ensure that the generic Mortgage Valuation Report is provided to every potential Purchaser.

1.5 TRANSCRIPT MORTGAGE VALUATION FOR LENDING PURPOSES

The Surveyors undertake that on being asked to do so by a prospective purchaser, or his/her professional advisor or Lender, they will prepare a Transcript Mortgage Valuation Report for Lending Purposes on terms and conditions to be agreed between the Surveyors and Lender and solely for the use of the Lender and upon which the Lender may rely. The decision as to whether finance will be provided is entirely a matter for the Lender. The Transcript Mortgage Valuation Report will be prepared from information contained in the Report and the generic Mortgage Valuation Report. 2

1.6 INTELLECTUAL PROPERTY

All intellectual property rights whatsoever (including copyright) in and to the Report, excluding the headings and rubrics, are the exclusive property of the Surveyors and shall remain their exclusive property unless they assign the same to any other party in writing.

1.7 PAYMENT

The Surveyors are entitled to refrain from delivering the Report to anyone until the fee and other charges for it notified to the Seller have been paid. Additional fees will be charged for subsequent inspections and Reports.

1.8 CANCELLATION

The Seller will be entitled to cancel the inspection by notifying the Surveyor's office at any time before the day of the inspection.

The Surveyor will be entitled not to proceed with the inspection (and will so report promptly to the Seller) if after arriving at the property, the Surveyor concludes that it is of a type of construction of which the surveyor has insufficient specialist knowledge to be able to provide the inspection satisfactorily. The Surveyor will also be entitled not to proceed if after arriving at the property, the surveyor concludes that the property is exempt under Part 3 of The Housing (Scotland) Act 2006 as detailed in the (Prescribed Documents) Regulations 2008. If there is a potential threat to their health or personal safety, the inspection may be postponed or cancelled, at the Surveyor's discretion.

In the case of cancellation or the inspection not proceeding, the Surveyor will refund any fees paid by the Seller for the inspection and Report, except for

expenses reasonably incurred and any fee due in light of the final paragraph of this section.

In the case of cancellation by the Seller, for whatever reason, after the inspection has taken place but before a written report is issued, the Surveyor will be entitled to raise an Invoice equivalent to 80% of the agreed fee.

1.9 PRECEDENCE

If there is any incompatibility between these Terms and Conditions and the Report, these Terms and Conditions take precedence.

1.10 DEFINITIONS

- the "Lender" is the party who has provided or intends or proposes to provide financial assistance to the Purchaser towards the purchase of the Property and in whose favour a standard security will be granted over the Property;
- the "Transcript Mortgage Valuation Report for Lending Purposes" means a separate report, prepared by the Surveyor, prepared from information in the Report and the generic Mortgage Valuation Report, but in a style and format required by the Lender. The Transcript Mortgage Valuation Report for Lending Purposes will be prepared with the skill and care reasonably to be expected from a surveyor who is a member of the Royal Institution of Chartered Surveyors and who is competent to survey, value and report on the Property;
- the "Generic Mortgage Valuation Report" means a separate report, prepared by the Surveyor from information in the Report but in the Surveyor's own format.
- the "Market Value" is *The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion*
- the "Property" is the property which forms the subject of the Report;
- the "Purchaser" is the person (or persons) who enters into a contract to buy the Property from the Seller;
- a "prospective Purchaser" is anyone considering buying the Property.
- the "Report" is the report, of the kind described in Part 2 of these Terms and Conditions and in the form set out in part 1 of Schedule 1 of the Housing (Scotland) Act 2006 (Prescribed Documents) Regulations 2008;
- the "Seller" is/are the proprietor(s) of the Property;
- the "Surveyor" is the author of the Report on the Property; and

² Which shall be in accordance with the current RICS Valuation Standards (the Red Book) and RICS Rules of Conduct.

- the "Surveyors" are the firm or company of which the Surveyor is an employee, director, member or partner (unless the Surveyor is not an employee, director, member or partner, when the "Surveyors" means the Surveyor) whose details are set out at the head of the Report.
- the "Energy Report" is the advice given by the accredited Energy Company, based on information collected by the Surveyor during the Inspection, and also includes an Energy Performance Certificate, in a Government approved format.

PART 2 – DESCRIPTION OF THE REPORT

2.1 THE SERVICE

The Single Survey is a Report by an independent Surveyor, prepared in an objective way regarding the condition and value of the Property on the day of the inspection, and who is a member of the Royal Institution of Chartered Surveyors. It includes an Energy Report as required by Statute and this is in the format of the accredited Energy Company. In addition, the Surveyor has agreed to supply a generic Mortgage Valuation Report.

2.2 THE INSPECTION

The Inspection is a general surface examination of those parts of the Property which are accessible: in other words, *visible and readily available for examination from ground and floor levels, without risk of causing damage to the Property or injury to the Surveyor.*

All references to visual inspection refer to an inspection from within the property at floor level and from ground level within the site and adjoining public areas, without the need to move any obstructions. Any references to left or right are taken facing the front of the property.

The Inspection is carried out with the Seller's permission, without causing damage to the building or contents. Furniture, stored items and insulation are not moved.

Unless identified in the report the Surveyor will assume that no harmful or hazardous materials have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

The Surveyor will not carry out an asbestos inspection, and will not be acting as an asbestos inspector in completing a Single Survey of properties that may fall within the Control of Asbestos in the Workplace Regulations. In the case of flats it will be assumed that there is a duty holder, as defined in the Regulations and that a Register of Asbestos and effective Management Plan is in place, which does not require any expenditure, or pose a significant risk to health. No enquiry of the duty holder will be made.

2.3 THE REPORT

The Report will be prepared by the Surveyor who carried out the property inspection and will describe various aspects of the property as defined by the headings of the Single Survey report with the comments being general and unbiased. The report on the location, style and condition of the property, will be concise and will be restricted to matters that could have a material effect upon value and will omit items that, in the Surveyor's opinion, are not

significant. If certain minor matters are mentioned, it should not be interpreted that the property is free of any other minor defects.

Throughout the report, the following repair categories will be used to give an overall opinion of the state of repair and condition of the property.

2.3.1 Category 3: Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.

2.3.2 Category 2: Repairs or replacement requiring future attention, but estimates are still advised.

2.3.3 Category 1: No immediate action or repair is needed.

WARNING: If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions when the effect can be considerable.

Parts of the property, which cannot be seen or accessed, will not be reported upon and this will be stated. If the Surveyor suspects that a defect may exist within an unexposed area and which could have a material effect upon the value, he may recommend further investigation by specialist contractors.

2.4 SERVICES

Surveyors are not equipped or qualified to test the services and therefore no comment can be interpreted as implying that the design, installation and function of the services are in accordance/compliance with regulations, safety and efficiency expectations. However, comment is made where there is cause to suspect significant defects or shortcomings with the installations. No tests are made of any services or appliances.

2.5 ACCESSIBILITY

A section is included to help identify the basic information interested parties need to know to decide whether to view a property.

2.6 ENERGY REPORT

A section is included that makes provision for an Energy Report, relative to the property. The Surveyor will collect physical data from the property and provide such data in a format required by an accredited Energy Company. The Surveyor cannot of course accept liability for any advice given by the Energy Company.

2.7 VALUATION AND CONVEYANCER ISSUES

The last section of the Report contains matters considered relevant to the Conveyancer (Solicitor). It also contains the Surveyor's opinion both of the market value of the property and of the re-instatement cost, as defined below.

"Market Value" The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an

arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. In arriving at the opinion of the Market Value the Surveyor also makes various standard assumptions covering, for example, vacant possession; tenure and other legal considerations; contamination and hazardous materials; the condition of un-inspected parts; the right to use mains services; and the exclusion of curtains, carpets etc. from the valuation. In the case of flats, the following further assumptions are made that:

- *There are rights of access and exit over all communal roadways, corridors, stairways etc. and to use communal grounds, parking areas, and other facilities;
- *There are no particularly troublesome or unusual legal restrictions;
- *There is no current dispute between the occupiers of the flats or any outstanding claims or losses; and the costs of repairs to the building are shared among the co-proprietors on an equitable basis.

Any additional assumption, or any found not to apply, is reported.

“Re-instatement cost” is an estimate for insurance purposes of the current cost of rebuilding the Property in its present form unless otherwise stated. This includes the cost of rebuilding the garage and permanent outbuildings, site clearance and professional fees, but excludes VAT (except on the fees).

Sellers or prospective Purchasers may consider it prudent to instruct a reinspection and revaluation after a period of 12 weeks (or sooner if appropriate) to reflect changing circumstances in the market and/or in the physical condition of the Property

1. INFORMATION AND SCOPE OF INSPECTION

This section tells you about the type, accommodation, neighbourhood, age and construction of the property. It also tells you about the extent of the inspection and highlights anything that the Surveyor could not inspect.

All references to visual inspection refer to an inspection from within the property without moving any obstructions and externally from ground level within the site and adjoining public areas. Any references to left or right in a description of the exterior of the property refer to the view of someone standing facing that part of the property from the outside.

The inspection is carried out without causing damage to the building or its contents and without endangering the occupiers or the Surveyor. Heavy furniture, stored items and insulation are not moved. Unless identified in the report the Surveyor will assume that no harmful or hazardous materials or techniques have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

Services such as TV/cable connection, internet connection, swimming pools and other leisure facilities will not be inspected or reported on.

Description	Self Contained and Purpose Built Ground Floor Flat forming part of a two storey block of similarly styled units.
Accommodation	On One Floor - Entrance Hall, Living Room, Dining Kitchen, Shower Room and 2 Bedrooms, one of which with an En-Suite Shower Room.
Gross internal floor area (m2)	86 sq m approximately
Neighbourhood and location	The subjects comprise a Self Contained and Purpose Built Ground Floor Flat , situated within a predominantly private residential area. Surrounding properties are of a similar age and style of construction and the property is conveniently located for most local amenities.
Age	20 years approximately
Weather	Overcast and showery following a period of mixed weather.
Chimney stacks	None.
Roofing including roof space	<p><i>Sloping roofs were visually inspected with the aid of binoculars where required.</i></p> <p><i>Roof spaces were visually inspected and were entered where there was safe and reasonable access, normally defined as being from a 3m ladder within the property. If this is not possible, then physical access to the roof space may be taken by other means if the Surveyor deems it safe and reasonable to do so.</i></p> <p>The roof is sloping and covered with concrete interlocking</p>

	<p>tiles. The roof structure incorporates valley gutters which are lead lined.</p> <p>No access was gained to the roof space as access is by way of the upper floor flats above in separate ownership. The roof is, however, assumed to be conventional with timber trusses.</p>
Rainwater fittings	<p><i>Visually inspected with the aid of binoculars where required.</i></p> <p>Gutters and downpipes are of PVC design.</p>
Main walls	<p><i>Visually inspected with the aid of binoculars where required. Foundations and concealed parts were not exposed or inspected.</i></p> <p>Main external walls are of conventional timber framed cavity construction with block outer leaf, part rendered.</p>
Windows, external doors and joinery	<p><i>Internal and external doors were opened and closed where keys were available.</i></p> <p><i>Random windows were opened and closed where possible.</i></p> <p><i>Doors and windows were not forced open.</i></p> <p>Roofline details are of timber design. Windows appear to be the original and are timber framed and double glazed. The entrance door is of timber design. The rear door is PVC framed and double glazed.</p>
External decorations	<p><i>Visually inspected.</i></p> <p>External timber details are painted.</p> <p>External walls are part rendered.</p>
Conservatories / porches	None
Communal areas	<p><i>Circulation areas visually inspected.</i></p> <p>Access to the property is by way of a security entry door leading into a communal hallway and stair typical of properties of this age and type. This is an unheated space. Floors and stairs are of concrete design. Ceilings and walls are lined with plasterboard and painted.</p>

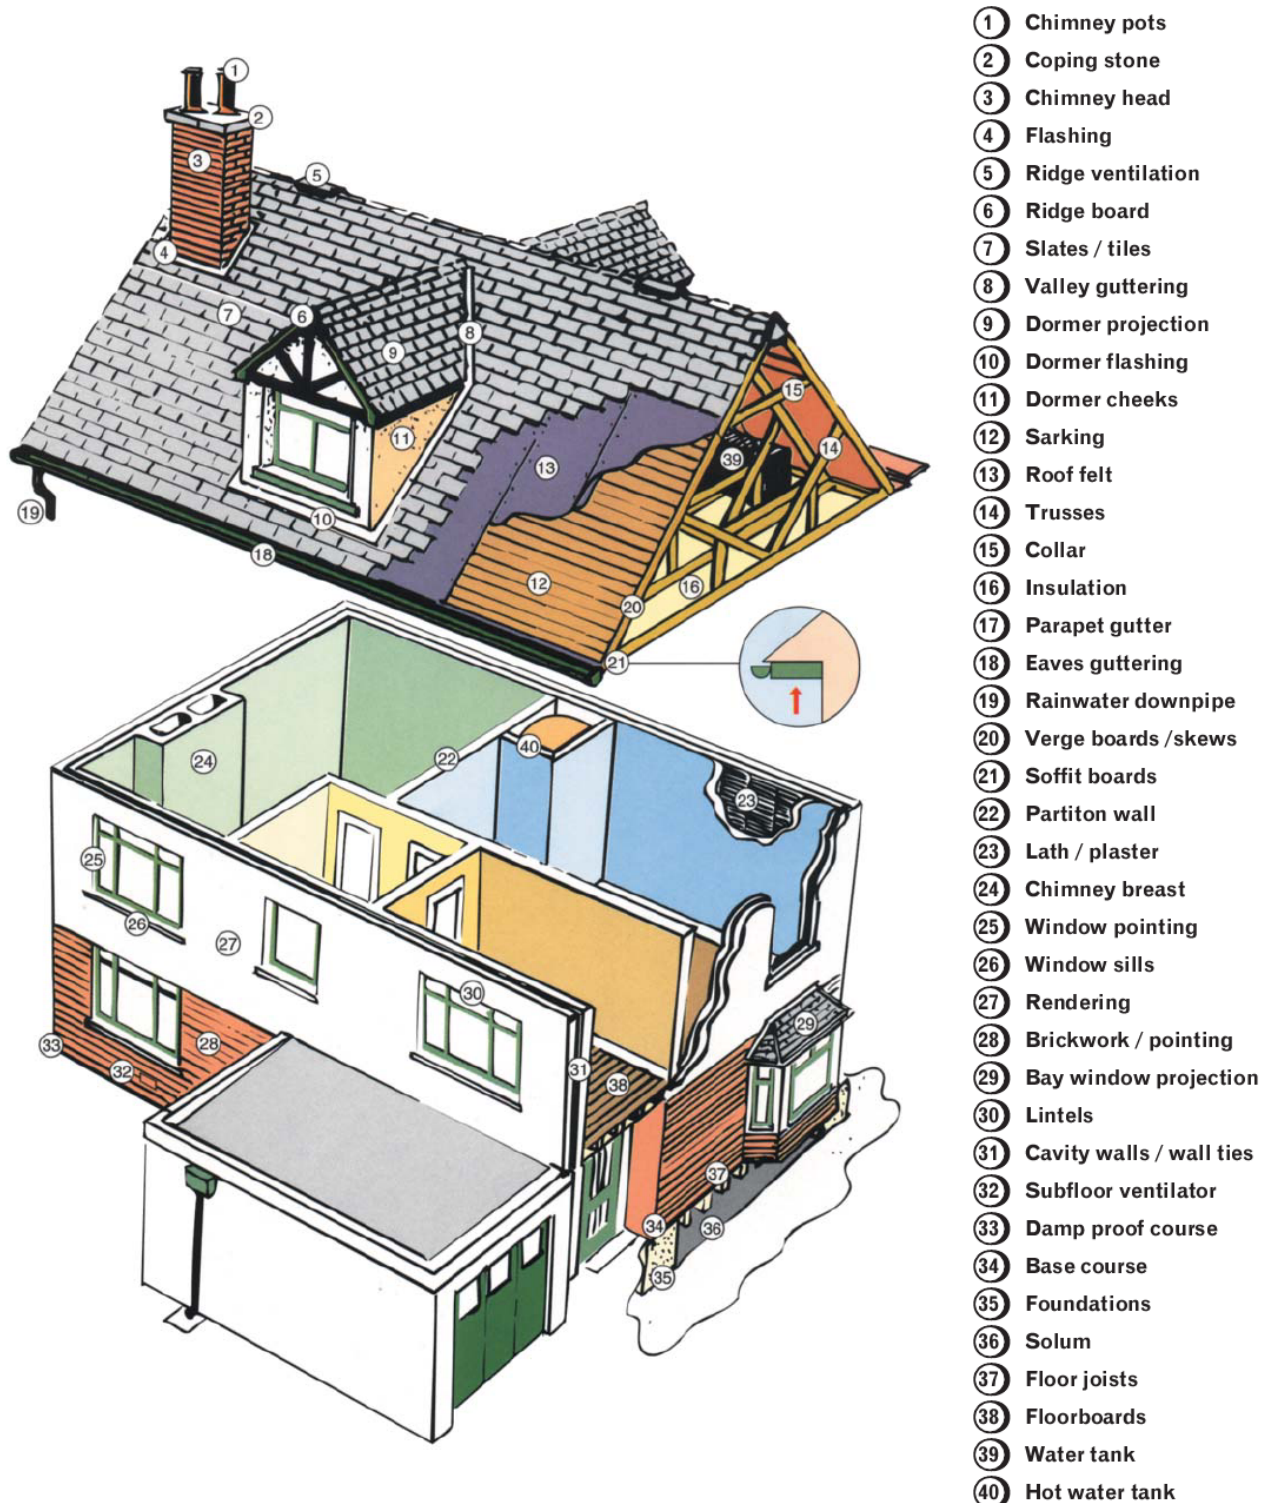

Garages and permanent outbuildings	None
Outside areas and boundaries	<p><i>Visually inspected.</i></p> <p>The extent of any private garden ground should be able to be established from Titles. Most of the outside areas are assumed to be communal and it is understood there is one allocated car parking space.</p> <p>Outside areas include a mono blocked parking area, paths, lawn and borders.</p> <p>Boundaries are of timber fence design.</p>
Ceilings	<p><i>Visually inspected from floor level.</i></p> <p>Ceilings throughout are of plasterboard design.</p>
Internal walls	<p><i>Visually inspected from floor level.</i></p> <p><i>Using a moisture meter, walls were randomly tested for dampness where considered appropriate.</i></p> <p>Internal walls are lined with plasterboard.</p>
Floors including sub floors	<p><i>Surfaces of exposed floors were visually inspected. No carpets or floor coverings were lifted.</i></p> <p>Floors throughout are of solid construction assumed to be concrete. All floors are fully covered.</p>
Internal joinery and kitchen fittings	<p><i>Built-in cupboards were looked into but no stored items were moved.</i></p> <p><i>Kitchen units were visually inspected excluding appliances.</i></p> <p>Fitted units are installed to the dining kitchen with laminated door fronts and countertops. Other internal joinery is of timber design and is painted.</p> <p>Glazing exists to some internal doors. It is beyond the scope of this inspection to test the glazing for compliance with current safety standards.</p>
Chimney breasts and fireplaces	<i>Visually inspected. No testing of the flues or fittings was carried out.</i>

	There is an electric fire in the living room within a marble fire surround. There is no chimney breast.
Internal decorations	<p><i>Visually inspected.</i></p> <p>Tiling exists to kitchen, bathroom and en-suite shower room walls. All other areas are papered and painted.</p>
Cellars	None apparent.
Electricity	<p>Accessible parts of the wiring were visually inspected without removing fittings.</p> <p>No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the Surveyor will state that in the report and will not turn them on.</p> <p>There is a mains electricity supply. The installation includes a circuit breaker. Visible wiring is PVC and is connected to 13 amp sockets and switchgear.</p>
Gas	<p>Accessible parts of the system were visually inspected without removing fittings.</p> <p>No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the Surveyor will state that in the report and will not turn them on.</p> <p>There is a mains gas supply.</p>
Water, plumbing and bathroom fittings	<p><i>Visual inspection of the accessible pipework, water tanks, cylinders and fittings without removing any insulation.</i></p> <p><i>No tests whatsoever were carried out to the system or appliances.</i></p> <p>There is a mains water supply. Water pipework is copper and plastic.</p> <p>Sanitary fittings throughout are white and comprise the following:-</p> <p>Main Shower Room - W.C., wash hand basin and double</p>

	<p>shower cubicle with electric shower installed.</p> <p>En-Suite Shower Room - W.C., wash hand basin and shower cubicle with electric shower installed.</p>
Heating and hot water	<p><i>Accessible parts of the system were visually inspected apart from communal systems, which were not inspected.</i></p> <p><i>No tests whatsoever were carried out to the system or appliances.</i></p> <p>There is a full gas fired central heating system incorporating a Worcester Greenstar condensing combination boiler and connected to hot water radiators throughout, with thermostatic radiator valves.</p> <p>The central heating boiler supplied the hot water.</p>
Drainage	<p><i>Drainage covers etc were not lifted.</i></p> <p><i>Neither drains nor drainage systems were tested.</i></p> <p>Drainage is understood to be to the main public system.</p>
Fire, smoke and burglar alarms	<p><i>Visually inspected.</i></p> <p><i>No tests whatsoever were carried out to the system or appliances.</i></p> <p>There is a smoke alarm in the property.</p>
Any additional limits to inspection	<p><i>Only the subject flat and internal communal areas giving access to the flat were inspected.</i></p> <p><i>If the roof space or under-building / basement is communal, reasonable and safe access is not always possible. If no inspection was possible, this will be stated. If no inspection was possible, the Surveyor will assume that there are no defects that will have a material effect on the valuation.</i></p> <p><i>The building containing the flat, including any external communal areas, was visually inspected only to the extent that the Surveyor is able to give an opinion on the general condition and standard of maintenance.</i></p> <p><i>An inspection for Japanese Knotweed was not carried out. This is a plant which is subject to control regulation, is considered to be invasive and one which can render a property unsuitable for some mortgage lenders. It is therefore assumed that there is no Japanese Knotweed within the boundaries of the property or its neighbouring property. Identification of Japanese Knotweed is best undertaken by a specialist contractor. If it exists removal must be undertaken in a controlled manner by specialist contractors. This can prove to be</i></p>

	<p><i>expensive.</i></p> <p>The external inspection was from ground level only.</p> <p>The property was occupied, furnished and the floor were covered. Fitted floor coverings limited the view of the flooring.</p> <p>No roof space inspection was undertaken.</p>
--	---

Sectional Diagram showing elements of a typical house

Reference may be made in this report to some or all of the above component parts of the property. This diagram may assist you in locating and understanding these items.

2. CONDITION

This section identifies problems and tells you about the urgency of any repairs by using one of the following 3 categories:

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Structural movement

Repair category:	1
Notes:	There was no visible evidence of settlement or localised building movement.

Dampness, rot and infestation

Repair category:	1
Notes:	Within the limitations of the inspection there was no evidence of dampness, rot or infestation.

Chimney stacks

Repair category:	
Notes:	None serving this property.

Roofing including roof space

Repair category:	1
Notes:	There is evidence of general wear to the surface of the roof tiles commensurate with their age.

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Rainwater fittings	
Repair category:	1
Notes:	No significant defects were identified.

Main walls	
Repair category:	1
Notes:	Staining to the render is consistent with the effects of weathering over time.

Windows, external doors and joinery	
Repair category:	1
Notes:	<p>The windows appear to be the original and show evidence of general wear commensurate with their age.</p> <p>Worn handles and opening mechanisms were observed. Slight staining was noted internally to the base of the living room window consistent with the effects of condensation or a slight leak.</p> <p>Due to the age of the windows, increasing maintenance to seals, catches and hinges should be anticipated.</p>

External decorations	
Repair category:	1
Notes:	Flaking paint was noted to external joinery. This is capable of remedy in the course of ongoing maintenance.

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Conservatories / porches	
Repair category:	
Notes:	None

Communal areas	
Repair category:	1
Notes:	No significant defects were identified.

Garages and permanent outbuildings	
Repair category:	
Notes:	None

Outside areas and boundaries	
Repair category:	1
Notes:	Outside areas are well maintained.

Ceilings	
Repair category:	1
	No significant defects were identified.

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Notes:	
--------	--

Internal walls	
Repair category:	1
Notes:	No significant defects were identified.

Floors including sub-floors	
Repair category:	1
Notes:	No significant defects were identified.

Internal joinery and kitchen fittings	
Repair category:	1
Notes:	The kitchen units are of contemporary style and have been well maintained.

Chimney breasts and fireplaces	
Repair category:	
Notes:	None

Internal decorations	
----------------------	--

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Repair category:	1
Notes:	No significant defects were identified.

Cellars	
Repair category:	
Notes:	None

Electricity	
Repair category:	1
Notes:	It is recommended that an electrical system is periodically checked in a 10 year cycle in order to keep up to date with frequent changes in safety legislation. Test certification should be exhibited.

Gas	
Repair category:	1
Notes:	Industry best practice directives suggest annual checks are desirable.

Water, plumbing and bathroom fittings	
Repair category:	1
	No significant defects were identified.

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Notes:	
--------	--

Heating and hot water	
Repair category:	1
Notes:	<p>It appears as though the central heating system was installed in 2018. The balance of any warranty should be able to be transferred to the potential purchaser. It is assumed that the boiler has been annually maintained since its installation. This should be able to be confirmed by the potential purchaser.</p> <p>It is considered good practice to have a central heating system annually serviced to ensure that it operates efficiently and safely. Servicing certification should be exhibited.</p>

Drainage	
Repair category:	1
Notes:	Drainage is by gravity feed to the Local Authority sewer. Drainage covers were not lifted nor were any tests undertaken on the system.

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Set out below is a summary of the condition of the property which is provided for reference only. You should refer to the comments above for detailed information

Structural movement	1
Dampness, rot and infestation	1
Chimney stacks	
Roofing including roof space	1
Rainwater fittings	1
Main walls	1
Windows, external doors and joinery	1
External decorations	1
Conservatories / porches	
Communal areas	1

Remember

The cost of repairs may influence the amount someone is prepared to pay for the property. We recommend that relevant estimates and reports are obtained in your own name.

Warning

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions where the effect can be considerable.

3. ACCESSIBILITY INFORMATION

Guidance Notes on Accessibility Information

Three steps or fewer to a main entrance door of the property: In flatted developments the 'main entrance' would be the flat's own entrance door, not the external door to the communal stair. The 'three steps or fewer' are counted from external ground level to the flat's entrance door. Where a lift is present, the count is based on the number of steps climbed when using the lift.

Unrestricted parking within 25 metres: For this purpose, 'Unrestricted parking' includes parking available by means of a parking permit. Restricted parking includes parking that is subject to parking restrictions, as indicated by the presence of solid yellow, red or white lines at the edge of the road or by a parking control sign, parking meters or other coinoperated machines.

1. Which floor(s) is the living accommodation on?	Ground
2. Are there three steps or fewer to a main entrance door of the property?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO
3. Is there a lift to the main entrance door of the property?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO
4. Are all door openings greater than 750mm?	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO
5. Is there a toilet on the same level as the living room and kitchen?	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO
6. Is there a toilet on the same level as a bedroom?	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO
7. Are all rooms on the same level with no internal steps or stairs?	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO
8. Is there unrestricted parking within 25 metres of an entrance door to the building?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO

4. VALUATION AND CONVEYANCER ISSUES

This section highlights information that should be checked with a solicitor or licensed conveyancer. It also gives an opinion of market value and an estimated re-instatement cost for insurance purposes.

Matters for a solicitor or licensed conveyancer	
<p>Towans Court is a fully made up road which it is assumed has been adopted for maintenance by the Local Authority. It is assumed that there is free and unrestricted legal access to the property from the public road and that the existing physical boundaries coincide with the title description.</p> <p>The roof and other items of the external fabric are assumed to be common property with a shared maintenance liability.</p> <p>Common external and internal areas also appear to exist with shared access rights and maintenance liabilities assumed.</p> <p>The extent of any private garden ground should be able to be established from Titles.</p> <p>It is further assumed that a factor is in place with charges applicable.</p> <p>It is assumed that the property and its value are unaffected by any matters which would or should be revealed to a completing Solicitor by a local search/replies to usual enquiries or by any statutory notice or planning proposal.</p>	
Estimated re-instatement cost (£) for insurance purposes	
<p>145,000 One Hundred and Forty Five Thousand Pounds</p>	
Valuation (£) and market comments	
<p>145,000 Following a return in confidence to the market, properties are now generally selling well providing mortgage finance remains available and they are realistically priced.</p> <p>We value the property vacant and in its present condition at the capital sum of One Hundred and Forty Five Thousand Pounds.</p>

P A R T 2 .

MORTGAGE VALUATION REPORT

Includes a market valuation of the property.

Mortgage Valuation Report

Property:	8c Towans Court Prestwick KA9 2AY	Client: Clients of Black Hay Tenure: Ownership
Date of Inspection:	20/07/2018	Reference: AD/5649

This report has been prepared as part of your instructions to carry out a Single Survey on the property referred to above. The purpose of this report is to summarise the Single Survey for the purpose of advising your lender on the suitability of the property for mortgage purposes. The decision as to whether mortgage finance will be provided is entirely a matter for the lender. You should not rely on this report in making your decision to purchase but consider all the documents provided in the Home Report. Your attention is drawn to the additional comments elsewhere within the report which set out the extent and limitations of the service provided. This report should be read in conjunction with the Single Survey Terms and Conditions (with MVR). In accordance with RICS Valuation – Global Standards 2017 this report is for the use of the party to whom it is addressed or their named client or their nominated lender. No responsibility is accepted to any third party for the whole or any part of the reports contents. Neither the whole or any part of this report may be included in any document, circular or statement without prior approval in writing from the surveyor.

1.0 LOCATION

The subjects comprise a Self Contained and Purpose Built Ground Floor Flat , situated within a predominantly private residential area. Surrounding properties are of a similar age and style of construction and the property is conveniently located for most local amenities.

2.0 DESCRIPTION 2.1 Age: 20 years approximately

Self Contained and Purpose Built Ground Floor Flat forming part of a two storey block of similarly styled units.

3.0 CONSTRUCTION

Walls - timber framed, cavity block outer leaf, rendered.

Roof - pitched timber framed, tiled.

Floors - solid.

4.0 ACCOMMODATION

On One Floor - Entrance Hall, Living Room, Dining Kitchen, Shower Room and 2 Bedrooms, one of which with an En-Suite Shower Room.

5.0 SERVICES (No tests have been applied to any of the services)

Water:	Mains	Electricity:	Mains	Gas:	Mains	Drainage:	Mains
Central Heating:	Gas Fired serving panel radiators						

6.0	OUTBUILDINGS				
Garage:	-				
Others:	There is one allocated parking space.				
7.0	GENERAL CONDITION - A building survey has not been carried out, nor has any inspection been made of any woodwork, services or other parts of the property which were covered, unexposed or inaccessible. The report cannot therefore confirm that such parts of the property are free from defect. Failure to rectify defects, particularly involving water penetration may result in further and more serious defects arising. Where defects exist and where remedial work is necessary, prospective purchasers are advised to seek accurate estimates and costings from appropriate Contractors or Specialists before proceeding with the purchase. Generally we will not test or report on boundary walls, fences, outbuildings, radon gas or site contamination.				
In general terms, the property has been adequately maintained with regard to age and type. Points noted in the course of the inspection are considered to be capable of remedy in the course of routine and periodic maintenance and to be commensurate with a property of this age and type.					
8.0	ESSENTIAL REPAIR WORK (as a condition of any mortgage or, to preserve the condition of the property)				
None					
8.1 Retention recommended:		N/A			
9.0	ROADS & FOOTPATHS				
Made up and adopted.					
10.0	BUILDINGS INSURANCE (£):	145,000	GROSS EXTERNAL FLOOR AREA	95 sq m	Square metres
	<i>This figure is an opinion of an appropriate sum for which the property and substantial outbuildings should be insured against total destruction on a re-instatement basis assuming reconstruction of the property in its existing design and materials. Furnishings and fittings have not been included. No allowance has been included for inflation during the insurance period or during re-construction and no allowance has been made for VAT, other than on professional fees. Further discussions with your insurers is advised.</i>				
11.0	GENERAL REMARKS				
<p>The roof and other items of the external fabric are assumed to be common property with a shared maintenance liability.</p> <p>Common external and internal areas also appear to exist with shared access rights and maintenance liabilities assumed.</p> <p>The extent of any private garden ground should be able to be established from Titles.</p> <p>It is further assumed that a factor is in place with charges applicable.</p> <p>It is assumed that the property and its value are unaffected by any matters which would or should be revealed to a completing Solicitor by a local search/replies to usual enquiries or by any statutory notice or planning proposal.</p>					
12.0	VALUATION On the assumption of vacant possession and that the property is unaffected by any adverse planning proposals, onerous burdens, title restrictions or servitude rights. It is assumed that all necessary Local Authority consents, which may have been required, have been sought and obtained. No investigation of any contamination on, under or within the property has been made as we consider such matters to be outwith the scope of this report. All property built prior to the year 2000 may contain asbestos in one or more of its components or fittings. It is impossible to identify without a test. It is beyond the scope of this inspection to test for asbestos and future occupants should be advised that if they have any concerns then they should ask for a specialist to undertake appropriate tests.				
12.1	Market Value in present condition (£):	145,000	One Hundred and Forty Five Thousand Pounds		

12.2	Market Value on completion of essential works (£):	N/A		
12.3	Suitable security for normal mortgage purposes?	Yes		
12.4	Date of Valuation:	20/07/2018		
Signature:		Electronically Signed: 121106-09401549-D9C0		
Surveyor:	Mark Shanks	BSc MRICS	Date:	23/07/2018

P A R T 3 .

ENERGY REPORT

A report on the energy efficiency of the property.

energy report

energy report on:

Property address	8c Towans Court Prestwick KA9 2AY
-------------------------	---

Customer	Clients of Black Hay
-----------------	----------------------

Customer address	8c Towans Court Prestwick KA9 2AY
-------------------------	---

Prepared by	Mark Shanks, BSc MRICS Ayr - Allied Surveyors Scotland Plc
--------------------	---

Energy Performance Certificate (EPC)

Scotland

Dwellings

8C TOWANS COURT, PRESTWICK, KA9 2AY

Dwelling type: Ground-floor flat
Date of assessment: 20 July 2018
Date of certificate: 23 July 2018
Total floor area: 86 m²
Primary Energy Indicator: 147 kWh/m²/year

Reference number: 2205-1012-5203-1288-2904
Type of assessment: RdSAP, existing dwelling
Approved Organisation: Elmhurst
Main heating and fuel: Boiler and radiators, mains gas

You can use this document to:

- Compare current ratings of properties to see which are more energy efficient and environmentally friendly
- Find out how to save energy and money and also reduce CO₂ emissions by improving your home

Estimated energy costs for your home for 3 years*	£1,737	See your recommendations report for more information
Over 3 years you could save*	£189	

* based upon the cost of energy for heating, hot water, lighting and ventilation, calculated using standard assumptions

Very energy efficient - lower running costs

Not energy efficient - higher running costs

Current	Potential
76	79

Energy Efficiency Rating

This graph shows the current efficiency of your home, taking into account both energy efficiency and fuel costs. The higher this rating, the lower your fuel bills are likely to be.

Your current rating is **band C (76)**. The average rating for EPCs in Scotland is **band D (61)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

Very environmentally friendly - lower CO₂ emissions

Not environmentally friendly - higher CO₂ emissions

Current	Potential
78	80

Environmental Impact (CO₂) Rating

This graph shows the effect of your home on the environment in terms of carbon dioxide (CO₂) emissions. The higher the rating, the less impact it has on the environment.

Your current rating is **band C (78)**. The average rating for EPCs in Scotland is **band D (59)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

Top actions you can take to save money and make your home more efficient

Recommended measures	Indicative cost	Typical savings over 3 years	Available with Green Deal
1 Floor insulation (solid floor)	£4,000 - £6,000	£105.00	✓
2 Low energy lighting	£20	£84.00	

A full list of recommended improvement measures for your home, together with more information on potential cost and savings and advice to help you carry out improvements can be found in your recommendations report.

The Green Deal may allow you to make your home warmer and cheaper to run at no up-front capital cost. See your recommendations report for more details.

THIS PAGE IS THE ENERGY PERFORMANCE CERTIFICATE WHICH MUST BE AFFIXED TO THE DWELLING AND NOT BE REMOVED UNLESS IT IS REPLACED WITH AN UPDATED CERTIFICATE

Summary of the energy performance related features of this home

This table sets out the results of the survey which lists the current energy-related features of this home. Each element is assessed by the national calculation methodology; 1 star = very poor (least efficient), 2 stars = poor, 3 stars = average, 4 stars = good and 5 stars = very good (most efficient). The assessment does not take into consideration the condition of an element and how well it is working. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology, based on age and type of construction.

Element	Description	Energy Efficiency	Environmental
Walls	Timber frame, as built, insulated (assumed)	★★★★☆	★★★★☆
	Cavity wall, as built, insulated (assumed)	★★★★☆	★★★★☆
Roof	(another dwelling above)	—	—
Floor	Solid, limited insulation (assumed)	—	—
Windows	Fully double glazed	★★★☆☆	★★★☆☆
Main heating	Boiler and radiators, mains gas	★★★★☆	★★★★☆
Main heating controls	Programmer, room thermostat and TRVs	★★★★☆	★★★★☆
Secondary heating	Room heaters, electric	—	—
Hot water	From main system	★★★★☆	★★★★☆
Lighting	Low energy lighting in 50% of fixed outlets	★★★★☆	★★★★☆

The energy efficiency rating of your home

Your Energy Efficiency Rating is calculated using the standard UK methodology, RdSAP. This calculates energy used for heating, hot water, lighting and ventilation and then applies fuel costs to that energy use to give an overall rating for your home. The rating is given on a scale of 1 to 100. Other than the cost of fuel for electrical appliances and for cooking, a building with a rating of 100 would cost almost nothing to run.

As we all use our homes in different ways, the energy rating is calculated using standard occupancy assumptions which may be different from the way you use it. The rating also uses national weather information to allow comparison between buildings in different parts of Scotland. However, to make information more relevant to your home, local weather data is used to calculate your energy use, CO₂ emissions, running costs and the savings possible from making improvements.

The impact of your home on the environment

One of the biggest contributors to global warming is carbon dioxide. The energy we use for heating, lighting and power in our homes produces over a quarter of the UK's carbon dioxide emissions. Different fuels produce different amounts of carbon dioxide for every kilowatt hour (kWh) of energy used. The Environmental Impact Rating of your home is calculated by applying these 'carbon factors' for the fuels you use to your overall energy use.

The calculated emissions for your home are 26 kg CO₂/m²/yr.

The average Scottish household produces about 6 tonnes of carbon dioxide every year. Based on this assessment, heating and lighting this home currently produces approximately 2.2 tonnes of carbon dioxide every year. Adopting recommendations in this report can reduce emissions and protect the environment. If you were to install all of these recommendations this could reduce emissions by 0.2 tonnes per year. You could reduce emissions even more by switching to renewable energy sources.

Estimated energy costs for this home

	Current energy costs	Potential energy costs	Potential future savings
Heating	£1,170 over 3 years	£1,083 over 3 years	
Hot water	£267 over 3 years	£267 over 3 years	
Lighting	£300 over 3 years	£198 over 3 years	
Totals	£1,737	£1,548	

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances such as TVs, computers and cookers, and the benefits of any electricity generated by this home (for example, from photovoltaic panels). The potential savings in energy costs show the effect of undertaking all of the recommended measures listed below.

Recommendations for improvement

The measures below will improve the energy and environmental performance of this dwelling. The performance ratings after improvements listed below are cumulative; that is, they assume the improvements have been installed in the order that they appear in the table. Further information about the recommended measures and other simple actions to take today to save money is available from the Home Energy Scotland hotline which can be contacted on 0808 808 2282. Before carrying out work, make sure that the appropriate permissions are obtained, where necessary. This may include permission from a landlord (if you are a tenant) or the need to get a Building Warrant for certain types of work.

Recommended measures	Indicative cost	Typical saving per year	Rating after improvement		Green Deal
			Energy	Environment	
1 Floor insulation (solid floor)	£4,000 - £6,000	£35	C 78	C 80	✓
2 Low energy lighting for all fixed outlets	£20	£28	C 79	C 80	

Measures which have a green deal tick ✓ are likely to be eligible for Green Deal finance plans based on indicative costs. Subsidy also may be available for some measures, such as solid wall insulation. Additional support may also be available for certain households in receipt of means tested benefits. Measures which have an orange tick ⚠ may need additional finance. To find out how you could use Green Deal finance to improve your property, visit www.greenerscotland.org or contact the Home Energy Scotland hotline on 0808 808 2282.

Choosing the right improvement package

For free and impartial advice on choosing suitable measures for your property, contact the Home Energy Scotland hotline on 0808 808 2282 or go to www.greenerscotland.org.

About the recommended measures to improve your home's performance rating

This section offers additional information and advice on the recommended improvement measures for your home

1 Floor insulation (solid floor)

Insulation of a floor will significantly reduce heat loss; this will improve levels of comfort, reduce energy use and lower fuel bills. Insulating solid floors can present challenges; insulation laid on top of existing solid floors may impact on existing doors and finishes whilst lifting of a solid floor to insert insulation below will require consideration of the potential effect on both structural stability and damp proofing. It is advised to seek advice from a Chartered Structural Engineer or a registered Architect about this if unsure. Further information about floor insulation is available from many sources including www.energysavingtrust.org.uk/scotland/Insulation/Floor-insulation. Building regulations generally apply to this work and may also require a building warrant so it is best to check with your local authority building standards department.

2 Low energy lighting

Replacement of traditional light bulbs with energy saving bulbs will reduce lighting costs over the lifetime of the bulb, and they last many times longer than ordinary light bulbs. Low energy lamps and fittings are now commonplace and readily available. Information on energy efficiency lighting can be found from a wide range of organisations, including the Energy Saving Trust (<http://www.energysavingtrust.org.uk/home-energy-efficiency/lighting>).

Low and zero carbon energy sources

Low and zero carbon (LZC) energy sources are sources of energy that release either very little or no carbon dioxide into the atmosphere when they are used. Installing these sources may help reduce energy bills as well as cutting carbon.

LZC energy sources present: There are none provided for this home

Your home's heat demand

You could receive Renewable Heat Incentive (RHI) payments and help reduce carbon emissions by replacing your existing heating system with one that generates renewable heat and, where appropriate, having your loft insulated and cavity walls filled. The estimated energy required for space and water heating will form the basis of the payments. For more information go to www.energysavingtrust.org.uk/scotland/rhi.

Heat demand	Existing dwelling	Impact of loft insulation	Impact of cavity wall insulation	Impact of solid wall insulation
Space heating (kWh per year)	4,962	N/A	N/A	N/A
Water heating (kWh per year)	2,050			

About this document

This Recommendations Report and the accompanying Energy Performance Certificate are valid for a maximum of ten years. These documents cease to be valid where superseded by a more recent assessment of the same building carried out by a member of an Approved Organisation.

The Energy Performance Certificate and this Recommendations Report for this building were produced following an energy assessment undertaken by an assessor accredited by Elmhurst (www.elmhurstenergy.co.uk), an Approved Organisation Appointed by Scottish Ministers. The certificate has been produced under the Energy Performance of Buildings (Scotland) Regulations 2008 from data lodged to the Scottish EPC register. You can verify the validity of this document by visiting www.scottishepcregister.org.uk and entering the report reference number (RRN) printed at the top of this page.

Assessor's name:	Mr. Mark Shanks
Assessor membership number:	EES/013671
Company name/trading name:	Allied Surveyors Scotland Plc
Address:	3 Alloway Street Ayr KA7 1SP
Phone number:	01292 260509
Email address:	ayr@alliedsurveyors.com
Related party disclosure:	No related party

If you have any concerns regarding the content of this report or the service provided by your assessor you should in the first instance raise these matters with your assessor and with the Approved Organisation to which they belong. All Approved Organisations are required to publish their complaints and disciplinary procedures and details can be found online at the web address given above.

Use of this energy performance information

Once lodged by your EPC assessor, this Energy Performance Certificate and Recommendations Report are available to view online at www.scottishepcregister.org.uk, with the facility to search for any single record by entering the property address. This gives everyone access to any current, valid EPC except where a property has a Green Deal Plan, in which case the report reference number (RRN) must first be provided. The energy performance data in these documents, together with other building information gathered during the assessment is held on the Scottish EPC Register and is available to authorised recipients, including organisations delivering energy efficiency and carbon reduction initiatives on behalf of the Scottish and UK governments. A range of data from all assessments undertaken in Scotland is also published periodically by the Scottish Government. Further information on these matters and on Energy Performance Certificates in general, can be found at www.gov.scot/epc.

Opportunity to benefit from a Green Deal on this property

Under a Green Deal, the cost of the improvements is repaid over time via a credit agreement. Repayments are made through a charge added to the electricity bill for the property.

To see which improvements are recommended for this property, please turn to page 3. You can choose which improvements you want to install and ask for a quote from an authorised Green Deal provider. They will organise installation by an authorised Green Deal installer. If you move home, the responsibility for paying the Green Deal charge under the credit agreement passes to the new electricity bill payer.

For householders in receipt of income-related benefits, additional help may be available.

To find out more, visit www.greenerscotland.org or call 0808 808 2282.

P A R T 4 .

PROPERTY QUESTIONNAIRE

The owner of the property is required to complete this document which asks for information on the property such as 'Which council tax band?' etc.

Property Questionnaire

Property Address

8c Towans Court
Prestwick
KA9 2AY

Seller(s)

Clients of Black Hay

Completion date of property questionnaire

Note for sellers

1.	Length of ownership
	How long have you owned the property? 20 years
2.	Council tax
	Which Council Tax band is your property in? (Please circle) <input type="checkbox"/> A <input type="checkbox"/> B <input type="checkbox"/> C <input type="checkbox"/> D <input checked="" type="checkbox"/> E <input type="checkbox"/> F <input type="checkbox"/> G <input type="checkbox"/> H
3.	Parking
	What are the arrangements for parking at your property? (Please tick all that apply) <div> Garage <input type="checkbox"/> </div> <div> Allocated parking space <input type="checkbox"/> </div> <div> Driveway <input type="checkbox"/> </div> <div> Shared parking <input checked="" type="checkbox"/> </div> <div> On street <input type="checkbox"/> </div> <div> Resident permit <input type="checkbox"/> </div> <div> Metered parking <input type="checkbox"/> </div> <div> Other (please specify): </div>
	Conservation area

4.		
	Is your property in a designated Conservation Area (that is an area of special architectural or historical interest, the character or appearance of which it is desirable to preserve or enhance)?	[]YES []NO [x]Don't know
5.	Listed buildings	
	Is your property a Listed Building, or contained within one (that is a building recognised and approved as being of special architectural or historical interest)?	[]YES [x]NO
6.	Alterations/additions/extensions	
a	(i) During your time in the property, have you carried out any structural alterations, additions or extensions (for example, provision of an extra bath/shower room, toilet, or bedroom)?	[]YES [x]NO
	If you have answered yes, please describe below the changes which you have made:	
	(ii) Did you obtain planning permission, building warrant, completion certificate and other consents for this work?	[]YES []NO
	If you have answered yes, the relevant documents will be needed by the purchaser and you should give them to your solicitor as soon as possible for checking.	
	If you do not have the documents yourself, please note below who has these documents and your solicitor or estate agent will arrange to obtain them:	
b	Have you had replacement windows, doors, patio doors or double glazing installed in your property	[]YES [x]NO
	If you have answered yes, please answer the three questions below:	
	(i) Were the replacements the same shape and type as the ones you replaced?	[]YES []NO
	(ii) Did this work involve any changes to the window or door openings?	[]YES []NO
	(iii) Please describe the changes made to the windows doors, or patio doors (with approximate dates when the work was completed): Please give any guarantees which you received for this work to your solicitor or estate agent.	

7.	Central heating	
a	Is there a central heating system in your property? (Note: a partial central heating system is one which does not heat all the main rooms of the property - the main living room, the bedroom(s), the hall and the bathroom).	[x]YES []NO []Partial
	If you have answered yes or partial - what kind of central heating is there? (Examples: gas-fired, solid fuel, electric storage heating, gas warm air). <i>Gas fired</i>	
	If you have answered yes, please answer the three questions below:	
	(i) When was your central heating system or partial central heating system installed? <i>20 years</i>	
	(ii) Do you have a maintenance contract for the central heating system?	[x]YES []NO
	If you have answered yes, please give details of the company with which you have a maintenance contract <i>Scottish Gas</i>	
	(iii) When was your maintenance agreement last renewed? (Please provide the month and year). <i>Don't know</i>	
8.	Energy Performance Certificate	
	Does your property have an Energy Performance Certificate which is less than 10 years old?	[x]YES []NO
9.	Issues that may have affected your property	
a	Has there been any storm, flood, fire or other structural damage to your property while you have owned it?	[]YES [x]NO
	If you have answered yes, is the damage the subject of any outstanding insurance claim?	[]YES []NO
b	Are you aware of the existence of asbestos in your property?	[]YES [x]NO
	If you have answered yes, please give details:	
10.	Services	

a	Please tick which services are connected to your property and give details of the supplier:		
	Services	Connected	Supplier
	Gas or liquid petroleum gas	Y	Scottish Gas
	Water mains or private water supply	Y	
	Electricity	Y	Scottish Gas
	Mains drainage	Y	
	Telephone	Y	British Telecom
	Cable TV or satellite	N	
	Broadband	N	
b	Is there a septic tank system at your property?		<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO
	If you have answered yes, please answer the two questions below:		
	(i) Do you have appropriate consents for the discharge from your septic tank?		<input type="checkbox"/> YES <input type="checkbox"/> NO <input type="checkbox"/> Don't know
	(ii) Do you have a maintenance contract for your septic tank?		<input type="checkbox"/> YES <input type="checkbox"/> NO
	If you have answered yes, please give details of the company with which you have a maintenance contract:		
11.	Responsibilities for shared or common areas		
a	Are you aware of any responsibility to contribute to the cost of anything used jointly, such as the repair of a shared drive, private road, boundary, or garden area? If you have answered yes, please give details: <i>Factor Donald Ross</i>		<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO <input type="checkbox"/> Don't know
b	Is there a responsibility to contribute to repair and maintenance of the roof, common stairwell or other common areas? If you have answered yes, please give details: <i>Donald Ross</i>		<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO <input type="checkbox"/> N/A
c	Has there been any major repair or replacement of any part of the roof during the time you have owned the property?		<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO
d	Do you have the right to walk over any of your neighbours' property- for example to put out your rubbish bin or to maintain your boundaries?		<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO

	If you have answered yes, please give details:	
e	As far as you are aware, do any of your neighbours have the right to walk over your property, for example to put out their rubbish bin or to maintain their boundaries? If you have answered yes, please give details:	[]YES [x]NO
f	As far as you are aware, is there a public right of way across any part of your property? (public right of way is a way over which the public has a right to pass, whether or not the land is privately owned.) If you have answered yes, please give details:	[]YES [x]NO
12.	Charges associated with your property	
a	Is there a factor or property manager for your property? If you have answered yes, please provide the name and address, and give details of any deposit held and approximate charges: <i>Donald Ross</i>	[x]YES []NO
b	Is there a common buildings insurance policy?	[]YES []NO [x]Don't know
	If you have answered yes, is the cost of the insurance included in your monthly/annual factors charges?	[]YES []NO []Don't know
c	Please give details of any other charges you have to pay on a regular basis for the upkeep of common areas or repair works, for example to a residents' association, or maintenance or stair fund.	
13.	Specialist works	
a	As far as you are aware, has treatment of dry rot, wet rot, damp or any other specialist work ever been carried out to your property?	[]YES []NO
	If you have answered yes, please say what the repairs were for, whether you carried out the repairs (and when) or if they were done before you bought the property.
